

# National (online) Presentation

Saturday 30<sup>th</sup> October 2021

3.30 to 4.30pm (AEST)

## Addison's Disease + Diabetes +++

with **Professor Geoff Nicholson - MBBS (WA) PhD (Melb) FRACP FRCP**

This presentation will provide information on the epidemiology and management of Addison's Disease and Autoimmune Diabetes, and how they relate to other autoimmune conditions. This will be an informal session, so there will be plenty of time for interaction with Professor Nicholson. As a researcher of diabetes, and having treated people with both Addison's Disease and Diabetes for many years, he has a more nuanced understanding of these conditions and how to manage them effectively.

**Georgia Green, Diabetes Educator**, will also be available to discuss general management issues.

**Register your interest in attending:** <https://bit.ly/3DYVsCj> and a Zoom link will be sent to you. Please note that only parts of this presentation may be recorded and we encourage you to attend on the day if possible.
